Project Integration	Beneficiary (lead partner or project partner)	Beneficiary (project partner) or subcontractor	Beneficiary (project partner) or subcontractor

WHY PARTNERING WITH ACEEU

Extensive experience in EU-funded projects: 60+ projects since 2020 alone

Clear focus on pressing educational challenges: entrepreneurship, community engagement/DEI, sustainability, digitalisation, ...

Horizontal WP/activity leadership: We are experienced in and happy to take over roles in QA/evaluation, project sustainability, and dissemination.

Broad activity coverage: Due to our extensive experience and team capabilities, we can provide needs and market analysis, trainings & workshops, educational design, network development, event organisation, and tool development, and much more.

Specialised organisational profile: as an international quality assurance organisation with an extensive network, we enhance consortia – mostly composed of educational institutions - with multi-level complementarity and resources offering unique value towards successful partnerships)
Please refer to the attached presentation for more information on ACEEU.

WHY PARTNERING WITH EFSI

Clear skills focus: We specialise in the development of cross-industry competencies and abilities (digital literacy, adaptability and flexibility, critical thinking etc.) as well as industry-specific competencies and abilities.

Enabler for long-term impact of your project: The jointly developed materials and courses will remain accessible in the EFSI Studio and on the EFSI Academy, fostering lasting value and long-term educational outreach beyond the project's conclusion.

Newcomer bonus: As a newly established organisation, EFSI may provide additional points in your proposal's evaluation (depending on the call criteria)

EU-focus beyond national boundaries: While headquartered in Germany, EFSI has a clear EU focus and thus adds a European perspective to your project (both in terms of input, but also in terms of exploitation)

WHY PARTNERING WITH EDGE

EU and network perspective: Complement your consortium with an EU-wide network to showcase exploitation and impact.

Expertise in Green and Digital Education and Transitions: As a specialized network bridging education and practice, we complement often education-focused consortia.

Robust EU Project Experience: While newly established, EDGE's team brings extensive experience in EU-funded projects, enhancing project integration and execution.

Network Building and Sustainability: EDGE excels in ecosystem building, communication, dissemination, and ensuring the sustainability and exploitation of project outcomes
